TONE

CUSTOMIZABLE HANDS-FREE MUSCLE TONING TREATMENT

A hands-free solution to improve the definition of your natural physique. Easily sculpt your abs, lift your butt, and tone your hips with zero downtime.

Achieve the toned and refined look you have always wanted without the gym.

WHAT IS TONE?

Tone is an innovative non-invasive solution designed specifically to increase muscle strength. It is a nonsurgical procedure which will enhance your shape and tone.

Treatments are customized and tailored to address your specific needs, so the end result is a more defined appearance without incisions, scarring or downtime.

ABDOMEN

FLANKS

BUTTOCKS

HOW SAFE IS THE TREATMENT?

Tone is recommended for patients who are looking for a non-invasive treatment to tone muscles and address areas that require definition. Tone stimulates muscle contractions to target specific muscle groups. It is a safe and effective procedure that can be done in 30 minutes.

HOW DOES TONE WORK?

Tone uses electrical muscle stimulation (EMS) to induce involuntary muscle contractions. It is a quick and easy alternative to surgical procedures for achieving sculpted muscles.

ABDOMEN

WHAT CAN I EXPECT DURING THIS TREATMENT?

Most patients find Tone comfortable. During your treatment you can expect the Tone applicators to emit direct electrical muscle stimulation that will induce muscle contractions. You will feel your muscles contract similar to what you would experience during a workout. Your treatment can be adjusted progressively to your comfort level.

HOW MANY SESSIONS ARE RECOMMENDED?

Your practitioner will recommend the optimal number of sessions to be performed based on your personal objectives. Treatment times and frequency will be tailored to obtain the optimal results.

WHAT KIND OF POST PROCEDURE CARE IS REQUIRED?

There is zero downtime associated with Tone. It is a quick and painless treatment that can be done over your lunch time, allowing you to return to your normal activities immediately. Patients may notice redness and warmth in the treated area which will subside after a few hours.
